Yoga and Fitness Activity

Standing & Seated Twister

Standing Twister :

- Stand upright on the twister board.
- Hold the grip with both hands.
- Take twists to right and left with your legs. 10 repetitions for each side.

Benefits :

- Improved muscle tone and increased range of motion.
- Increase in muscle size and tone in the trunk muscles.
- Burns extra layer of body fat over the muscles

Seated Twister :

- Sit with your back straight on the twister seat.
- Hold the grip with both hands.
- Take twists to right and left from trunk. 10 repetitions for each side.

Lat Pulley

- Hold the grip of bar with both hands.
- Pull the bar down.
- Keep your chest tall/bring your chest to the bar
- Keep your elbows pointed straight down
- Lower to your chin or just below
- Slowly let the bar move up with the same speed as pulling down and repeat for 10 times.

Benefits :

- This exercise primarily strengthens the latissimus dorsi or 'lats' muscles, also hit the lower and middle trapezius, the rhomboids, and the serratus anterior.
- It develops the body posture as having a strong back is key to overall strength and fitness.

Biceps- Triceps Rowing Pulley

Sitting Position :

- Sit with back straight and support the legs to ladder.
- Hold the grips with both hands and pull closer to the chest.
- Release back and repeat for 10 times.

Benefits :

- Rowing is a full-body exercise that can help build and tone your muscles, improve your cardiovascular function and increase your stamina.
- Rowing burns calories rapidly, making it a suitable addition to your workout regimen if weight loss is your chief priority.
- Rowing is an endurance exercise that increases heart rate and oxygen consumption. Over time, regular cardio exercise leads to improved cardiovascular function and can reduce the risk of heart disease and stroke.

Yoga and Fitness Activity

Total Thigh and Hip Machine

- Stand upright and hold the grips.
- Glide the weight handle away from the body with right leg (abduction)
- Glide the weight handle towards the body with same leg (adduction)
- Repeat for 10 times for each leg.

Benefits :

- Strengthen the muscles in inner and outer thighs and hips.
- It develops the flexibility in waist region and burns abdominal fat.

Seated Leg-Press

- Position yourself properly on the machine.
- Sit down on the seat and place your feet somewhere on the middle of the foot rest or "plate," about 1 foot apart from each other.
- Then press your middle and lower back against the back rest.
- Set the machine with the right amount of weight to maximize the benefits of the exercise.
- Do about 12 to 15 repetitions.

Benefits :

- The leg press machine places greater emphasis on the quadriceps and hamstrings of thighs.
- It strengthens the thigh muscles and tones them, improves the endurance of muscles.

Barbell Exercise

- Hold the bar keeping the same distance from both ends.
- Keep the feet below the bar in parallel stance, bent the legs in knee and keep back straight, pull the bar upto waist.
- Slowly push the bar up till hands are straight.
- Pause and reverse the procedure back.

Benefits :

- Strengthen the shoulder muscles.
- Improves the tone of muscular activities.
- Maintains body equilibrium.

Yoga and Fitness Activity

Incline-Flat Bench

- Lay down on the bench with face up and adjust the feet in supports.
- Hold the bar at chest level keeping the same distance from both ends.
- Slowly push the bar up till hands are straight.
- Pause and reverse the procedure back.
- Repeat for 10 times.

Benefits :

- Strengthen the chest, shoulder and back muscles.
- Helps burn fat and hence calories.

Abdominal Board with Ladder

- Adjust the feet between the ladder properly.
- Lay down on the board with face up.
- Put both the hands behind head.
- Slowly move the head towards the knees and come back to rest position.
- Repeat for 10 times.

Benefits :

- Strengthen the abdominal muscles.
- Helps burn stomach fat and hence calories.
- Increases trunk flexibility.
